OPPOSITION TO RUSSIA GATHERS FORCE

France & China Join Anglo-American Front

Deadlock Spreads To Other Controversial Points

SOBOLEV'S RECALL TO MOSCOW PUZZLES 'FRISCO DELEGATES

SAN FRANCISCO, June 4, (Reuter): The open deadlock at the San Francisco Conference has now spread to other controversial points besides the dispute over the "Big Power" veto, cables Stanley Burch, Reuters' special correspondent.

The delegates are puzzled by the sudden recall to Moscow of M. A. A. Sobolev, one of the principal Soviet delegates. Intensive discussions between Russian and other Allied delegates over the week-end have made little, if any, progress towards a settlement, on which the whole conference depends.

NEW CONFERENCE OF DELEGATES

A new conference of the chief delegates is fixed for this afternoon when it is hoped that the British and French delegations will have received replies from their Governments on Moscow's "stand firm" decision.

The Middle and Small Powers are taking an obstinate stand on the veto question, which has been the main stumbling block at the conference.

TRUMAN-CHURCHILL NOTE TO STALIN?

SAN FRANCISCO, June 4, (Reuter): The possibility of a joint note from President Truman and Prime Minister Churchill to Marshal Stalin on the dispute at the World Security Conference over the Security Council veto is being raised here; it is reliably learnt, cables Stanley Burch, Reuter's news Editor for America.

It is known that Mr. Churchill now has the veto question personally in hand and the Big Five delegations are awaiting a reply from him on the Russian case.

With Lord Wavell also came Sir Ivan Jenkins, Private Secretary and Rao Bahadur V P Menon, Reform Commissioner. The seaplane touched down at 8/15 p m.

Lord Wavell is spending the night at Government House, Karachi and a leaving for Delhi tomorrow.

NOON IN KARACHI

Sir Feroz Khan Noon, one of the Indian delegates to the San Francisco Conference has returned to India. He arrived in Karachi today. He will leave for to New Delhi tomorrow.

Br. Govt. To Make Statement On India

LONDON, June 4 (Reuter): "Political circles in London consider it possible that the British Government may make an announcement on policy in India before Parliament dissolves next week, though I can obtain no official confirmation of this" writes Fraser Wighton, Reuter's political correspondent. The statement if made, doubtless would coincide with a similar announcement by the Viceroy at New Delhi.

BURMA BILL PAINS GANDHIJI

Pointer To Wavell's "Mental Handbag"

PANCHGANI, June 4 (O.P.I.): Gandhiji was greatly pained when the House of Commons proceedings on Burma Bill were read out to him by one of his Secretaries. Interviewed by a representative of the "Orient Press", Mr. Harekrishna Mehtab said, he was shocked at the way in which the Commons disposed of the Burma Bill and added that he failed to understand by Dominion Status was much more than independence Concluding he remarked, "the Burma Bill can be taken as a pointer to what Lord Wavell has been able to bring in to us in his 'mental handbag'.

Boston Paper Urges Labourites To Guarantee Indian Freedom

BOSTON, MASS., June 3 (U.P.A.). The Boston "Record" in an editorial to-day praised Mr. Ernest Bevin and urged the Labour Party, if they succeed in gaining control of the British Government, to give more power to the Indians and make India a guaranteed promise of independence at a specific time.

"The "Record", which has a circulation of more than half a million, asserted that any such offer made sincerely "no matter how belated, could not fail to lend power to the British war against Japan and might even work to the ultimate substantial profit of British interests in India."

WHEN TWO BRANDS OF IMPERIALISM FALL OUT

French Accuse British Of Being Hidden Hand Behind Syrian Incident

From S. A. SABAVALA, "Chronicle" Special Representative

SAN FRANCISCO, CALIF, June 4: The foundations of World War Three having been well and truly laid in Europe and the Middle East, we are entering a period of uneasy peace comparable to the 1918-1939 epoch, but incomparably more terrible in its total disintegrating influence. At this juncture of the world crisis it is advisable though difficult to take careful stock of that single world menace: Imperialism.

From all sides, all week, I have been endeavouring to gather the other side of the French-Syrian tangle which has almost wrecked the UNCIO ship of peace and progress. The French delegation has been uncommunicative and confused in its directives and the French press liaison office merely increasingly violent and abusive. In spite of the French, however, I have been able to gain an over-all impression of the case they wish to put forward, whether one believes in it or not. It is absolutely necessary at this stage that France gets an unbiased hearing.

LYTLETON-DE GAULLE PACT VIOLATED

According to them, the trouble started with 200 students parading with Nazi flags in Damascus. They are supposed, in some vague fashion, to be mixed up with the activities of the Grand Mufti; hence they had to be suppressed. According to them, the small number of troops sent was merely to relieve the garrisons inside Syria and as I was told, it was not with 500 men that there were attempts to bring pressure to bear on a Government which, as events have proved, can call on the protection of the 25,000 men of General Holmes. If France had really wished to threaten Syria, she would have sent at least two divisions. Accusations against the British are cate-

ALLIED MILITARY CHIEFS TO MEET IN BERLIN TODAY

LONDON, June 4, (Reuter): The first meeting between General Eisenhower, Marshal Zhukov, Field Marshal Montgomery and General De Lattre De Tassigny is expected to take place in or near Berlin tomorrow, writes Jon Kimche, Reuter's military correspondent.

It is emphasised, however, that this is only the first exploratory meeting and concerned in the first instance to agree upon a centre from which the Central Control Council for Germany is to function.

French C.-in-C. In Southern Syria Replaced

Arab League Council Meeting Discusses Dispute

CAIRO, June 4 (Reuter): The French Commander-in-Chief in Southern Syria, General Oliva Roget, has been replaced, says Reuter.

He left Damascus by air shortly after dawn to-day. There is no definite information about his future movements, dbut it is understood he is going first to Beirut, and then on to France.

Gen. Roget, who was promoted General less than a month ago, was in command of French troops in Damascus during the last week's events. For the past four days his residence has been guarded by British tanks and troops.

The movement of French troops and vehicles to new areas outside Damascus continues. French civilians also are still being evacuated.

ARAB LEAGUE COUNCIL MEETS

The Arab League Council, representing the Arab world in the Middle East, met at Cairo to discuss the dispute with France.

The Egyptian Prime Minister Nokrashy Pasha opened the proceedings.

CHARGE AGAINST BRITAIN

PARIS, June 4 (U.P.A.): Government circles to-day said that reports from Syria and Lebanon give the impression the British are attempting to control the entire political and economic life of that area, including internal and outgoing censorship.

These circles were angered at the report that Syrian gendarmes were instructed to maintain order, pointing out that the gendarmes were responsible for the attacks on French posts.

DE GAULLE RECEIVES DUFF COOPER

PARIS, June 4 (Reuter): General de Gaulle this afternoon received the British Ambassador Mr. Duff Cooper.

Aussies Capture Margy Hill On Tarakan: Chinese Advance Towards Indo-China

SAN FRANCISCO, June 4. (Reuter): Japanese suicide pilots have made the struggle for Okinawa island now in its last stages the costliest naval battle for the Allies in whole of the Pacific war, cables William Hardcastle, Reuter's special correspondent.

On Okinawa a new landing on Chinen Peninsula, which is already cut off by United States infantry, was reported by Tokyo.

The Peninsula forms the southern arm of the finest fleet anchorage in the southern approaches to Japan.

CHINESE ADVANCE TOWARDS INDO-CHINA.

CHUNGKING, June 4. (Reuter): Chinese troops have cut deeper into Japan's shrinking "corridor" between occupied China and Indo-China, as the American "mars" task force, seasoned in last year's North Burma campaign, prepares to take part in the final Chinese mainland battle, cables Graham Barrow, Reuter's Special Correspondent.

One of the two Chinese columns advancing on Liuchow, keypoint of the China, Indo-China Corridor, is only 28 miles from this railway junction in Kwangsi province.

Latest announced advance has been made by the Chinese driving up the highway from Nanning, the corridor city already in their hands.

Another also making for Luchow, is driving south-east along Kweichow-Kwangsi railroad. On Friday the two columns were about 60 miles apart.

Lohcheng and Yunghsien, north of Kweichow-Kwangsi railroad, have fallen to the Chinese, the communique stated.

The battle for Paoching, forward Japanese base in Western Hunan 280 miles north-east of Naning, is being fought in intense heat and dust.

Churchill's Broadside Against Labour

"Socialist Policy Abhorrent To British Ideas Of Freedom"

LONDON, June 4, (Reuter): A bitter attack on Socialist Policy, which he described as "abhorrent to British ideas of freedom and inseparably interwoven with totalitarianism" was made by Prime Minister Churchill in a broadcast speech this evening which marks the opening of the British election campaign.

The speech was the first of a series to be broadcast by the British Broadcasting Corporation during the next few days by the leaders of the parties.

POSER TO LIBERALS

Claiming that "there is scarcely a Liberal sentiment which animated the great Liberal leaders of the past which we do not inherit and defend," Mr. Churchill asked why the Liberal Party could not have remained with the Government at least until the defeat of Japan. "I am sorry to tell you that they have yielded to tactical temptation to acquire more seats in the house of Commons, if they can, at all costs", he said.

Mr. Churchill opened his speech by saying that he had hoped that the Government could have held together until the war against Japan was finished and many of his Labour colleagues would be glad to carry on.

"On the other hand the Socialist Party as a whole had been for some time eager to set out upon a political war-path, and when large numbers of people feel like that it is not good for their health to deny them what they want.

We will, therefore, give it to them to the best of our ability.

"I have, therefore, formed, exactly as I said I would do two years ago, another form of National Government resting not on the agreement of the three official party machines but on the Conservative Party with all men of goodwill of any party or no party who have been ready to give their services.

CALL TO VOTE NATIONAL

"I claim the support of all throughout the country who sincerely put the nation first in their thoughts. This is a National Government. I shall stand myself as a Conservative and National candidate. Others may choose to call themselves National or Liberal National, and those who give us their support, should vote national rather than party on the polling day."

Mr. Churchill said he particularly regretted the conduct of the Liberal Party, for there was no such a gulf between his Government and the Liberals as there was in the case of the Socialist.

"When could any Liberal Party in the past have been offered a political programme of social reform so mas-

Allied Troops May Soon Leave Persia

Persian Premier Makes Optimistic Statement In Parliament

LONDON, June 3. Teheran Radio, according to Reuter's radio station, stated that hope that Allied troops will leave Persia soon was expressed in the Persian Parliament to-day by the Prime Minister.

He said: "Now that the war is over, I hope that our Allies will withdraw from the country their troops, whose mission has been completed."

He outlined the Government's policy and was given a vote of confidence, said the broadcast.

Reuter adds that it was announced on May 30 that Persia had sent an official note to the British, American and Soviet embassies in Teheran demanding evacuation of their troops.

A report making this suggestion is understood to have been submitted to the Executive Committee of Labour, Industry and Commerce by Mr. C. H. Hartwell, Controller of imports.

"Communism An Evil"

Westminster Archbishop's Sympathy For Underdog

HULL (Yorkshire), June 3 (Reuter): The Roman Catholic Archbishop of Westminster, Dr. Bernard Griffin, speaking here today said: "Communism, because it is directly opposed to the belief of God, is intrinsically an evil." But he added, "I am not one of those who believe that East and West cannot live at peace. Still less am I the Cartoon Cleric who is haunted by the Bolshevik bogey."

The Archbishop said that materialists who decided that "religion was nothing but opium for the suffering workers of the world" were responsible for the Belsen and Dachau concentration camps.

The merest glance at the records of Twentieth Century totalitarian states will show you that whether dictatorship is of left or right, communal irresponsibility becomes the order of the day."

The Archbishop said: "One danger more pressing than another in our country is that we shall allow the State to become too powerful. There is danger lest the encroachment of the state be so gradual that the citizens lose their liberties before they know them to be in jeopardy."

But the Archbishop was "very far from preaching unrestrained and unrestricted individualism." He said: "When competition of every sort is uncontrolled by the community itself, the sufferer is always the poor man and the little man."

Gandhiji Leads Non-Violent Revolution

BEZWADA, June 3 (A.P.I.): Congressmen have absolutely no objection to seize power in the Government of the country and use it for the benefit of the people but Congressmen can only accept office when it is consistent with national self-respect and national dignity, said Mr. A. Kaleswara Rao, referring to Mr. C. Rajagopala-

Gandhiji at Panchgani

chari's recent speech regarding office acceptance, at a crowded meeting at Kankipadu district, today.
Indecent haste will not only lower the prestige of India in the eyes of the world, but will also weaken the revolution that Congress wants to achieve, he added.
Referring to the communists Mr. Kaleswara Rao completely disagreed with Mr. Rajagopalachari and said in the interest of absolute discipline in Congress which is quite essential for its carrying on its great freedom acquiring and national reconstructing work efficiently and successfully, there must be a rule that no Congressman could be a member of any other political party.
At the outset, Mr. Kaleswara Rao referred to European civilization with its brute force and aggressive spirit of domination and exploitation over coloured races and said that Mahatma Gandhi had been carrying on a great revolution on the solid foundations of truth and non-violence to establish real political, economic and social democracy in India and was building up a permanent world peace and security on the twin principles of freedom to all nations and absolute equality and fraternity among them without any distinction of colour and race.

A THOUGHT FOR THE DAY

All that England can do is to help India to work out her own salvation. All progress at the dictation of another whose hand is at India's throat is valueless. The highest work can only degenerate when slave labour produces it.

THE REAL ISSUE

Yesterday, Monday, June 4, the Arab League met in an emergency sessions to consider the grave crisis which French Imperialism has precipitated in the Middle East. For the League itself too it is a critical meeting for it is confronting its first real test since its birth. And we hope its first test will also prove a proud achievement. It is a very significant meeting because it may well have important reactions on the future of the Middle East and the Arab World. The League has been born of the sufferings of Arab States under the domination of European Imperialist Powers and of the dangers of extension and intensification of that domination. The Arab States realised what they were undergoing and what more they might undergo in the post-war period. They banded together in a common cause to protect the interests of each and all. It is perhaps only an accident that the first challenge to the League as an organisation has come from French Imperialism, for it might as likely have come from British Imperialism, or, particularly, from Anglo-American plans to Zionise Arab Palestine.

The French, as we have already suggested, blundered in a greedy desire to recover in victory what they had plainly given away some years ago. And in the attempt they resorted to brutality which has shocked the world and which ought to have shocked them too in view of the fact that it is so reminiscent of what was practised upon them by the Germans so very recently. But they were dealing with a people that had already dedicated itself to the cause of freedom. They had, moreover, forgotten the Anglo-American guarantee and Anglo-French rivalry. They had also forgotten the Arab League.

The League is meeting in Cairo to remind them of its existence. But it is also a reminder to other European Powers who have Imperialist "interests" in the Middle East and hope fondly to preserve and stabilise them. There is a wider significance to the Arab rising in the Levant and the Arab League's reaction, which is more important, save in the immediate context of events, than the Franco-Arab trouble. It represents the issue of the freedom of the Middle East from every kind of prejudicial interference by any foreign power, no matter on what imaginary, unreal and hypocritical excuse. The Arab League is a quit notice to European Imperialism. And it is as such that it deserves the support of India. This point should not be lost sight of in the local crisis of the Levant. Mr. Jinnah has just issued a fighting statement but probably he was concerned at the time more with the issue between France and the Arabs of the Levant. We are, however, glad that the Bombay meeting called on Sunday last by the Central Khilafat Committee saw the problem in its full perspective and its resolutions dealt with equal force to the dangers threatening other Middle East countries too. One of these dangers is rapidly assuming a grave shape. The designs against Arab Palestine have already been publicly proclaimed in America and Britain, and General de Gaulle too looks like supporting them. And while preparations are being made to enforce them at the proper moment, a blow at Palestine Arabs is apparently in contemplation for the imminent future. It is the possible trial of the Grand Mufti for "treason". In this connection it is regrettable to note that the London "Daily Worker" too, the organ of the Communist Party, supports such an unjust move. Nor, besides Palestine, are the complete freedom and sovereignty of Egypt, Iraq, Trans-jordan and Iran less important than the complete freedom and sovereignty of Syria and the Lebanon. The issue in the Middle East is that of getting rid of all Imperialisms and foreign encroachments and it calls for immediate support from India on a country-wide scale.

Frankly Speaking

A Delicate Mission

Dr. T. V. Soong is on his way to Moscow on a delicate mission which is generally to restore friendly relations between Moscow and Chungking. He has, as it were, been greeted in advance by 'Isvestia', the organ of the Soviet Government in an article criticising the Kuomintang. The value of the article, however, lies in the fact that Doctor Soong knows definitely before meeting the Russian leaders what Moscow feels and desires. One part of Russian criticism is, we feel, being already met. As General Wedemeyer announces a general Chinese offensive against the Japs is round the corner and, of course, much of what the Chinese lost recently has already been regained. But we hope Dr. Soong has the authority, and is in a position, to assure Russia that her political criticisms will also be met and that the Kuomintang will make serious and earnest efforts to democratise Chinese administration and achieve a satisfactory Chungking-Yenan compromise.

Matriculation

Of the 33,412 candidates who appeared this year for the Matriculation examination of the Bombay University about 12,600 have come out successful, the corresponding figures last year being approximately 32,000 and 17,300. So many thousands take the Matric examination annually in preference to vocational ones as this alone is the door to higher education, vocational as well as non-vocational, besides being itself a popular passport to service. Not all the students who take the examination can afford to go through a full collegiate course at a stretch. But most of them wish to go through as much as they can, with interruptions if necessary; such is the popularity of college education because of its utility as well as cultural value. The number of matriculates and college students, therefore, is fast increasing, and the problem of accommodating them in colleges has become very acute in recent years.

Wanted More Colleges

It is clear we need more colleges, each district having at least one Arts and Science College, and each Division having at least one medical, one engineering and one agricultural college. The need for more engineering and medical colleges in particular is most urgent and deserves the serious attention of Government and the public. Bombay city and suburbs present a special problem as a large number of students from the districts come here because of the many cultural facilities available in the city. There are also hundreds of young men who work in firms in the city but are also anxious to acquire college education, if available, without losing their jobs. Many of these young men must necessarily be very earnest students and it would be unkind and unfair to deny to them any possible educational facilities. Because of these two classes of students in Bombay city and suburbs, there has recently been severe congestion in our local colleges. And as it is not easy to have more colleges in the city and suburbs soon, the alternative of a double shift has been suggested by many. For several reasons this method has had to be adopted by the Khalsa College at Matunga. In the interest of students working in offices the method deserves to be adopted by more colleges.

Khalsa College

We regret to learn, however, that the Khalsa College, which had a morning shift from 7-25 to 10-5 for all Arts classes, has been or is about to be asked by the University to change the hours and commence work at 9 a.m. If the change is imposed upon the College several hundreds of students who are engaged in office will, we are told, have to cut short their course in the middle, a serious loss to the public, as well as to the students concerned. On the other hand the convenience to the few who can attend from 9 a.m. to 12 noon will be but slight, if any. Most Indian students are or can easily train themselves to be early risers and lakhs of little students attend primary schools commencing work at 7 a.m. Starting work at 7-25 cannot be a hardship to adults. Nor can it be objected that a proper academic atmosphere is not possible in the early hours. When a large number of office-goers are earnest enough to attend college in the early hours, the atmosphere of earnest work about them is itself an asset to any educational institution. We fervently hope the Khalsa College will not be compelled so to change its morning hours as to make it impossible for office-goers to leave the College.

Triple Barrier Of Flame

Nazis Missed This When They Failed To Invade Britain!

LONDON, June 3 (Reuter): A triple barrier of flame was prepared to meet any attempt at the invasion of Britain, the Minister of Information, Mr. Geoffrey Llyod, disclosed to-day.

The first barrier at sea was designed to consume ships and barges before they could reach British shores. Behind it, infinitely more formidable, was a barrier of flame which would have swept the beaches, cliff sides and roads. Yet more flame would have streamed down the hillsides and met paratroopers and aircraft as they landed.

Realising the German awareness of the British Fire Defences—which included concealed coastal storage tanks from which at the pressing of a button millions of gallons of oil would have risen to the sea surface from underwater pipes and flared up in spontaneous combustion—British Intelligence dropped leaflets on Germany warning German troops of a "hot reception" awaiting the would be invaders.

WHEN TWO BRANDS OF IMPERIALISM FALL OUT

(Continued from page 1)

goric and precede the date of General de Gaulle's charge by several days. The French claim violation of the Lytleton-De Gaulle Pact of 1941. They claim that the Syrians were armed with British Weapons and that the so-called Allies have deliberately provided the last incident in order to make their move into Syria a 'fait accompli' recognized by International Law. The French Journal writes: "One may ask why the British are so receptive to the protests from the Syrians and ignore those from the Egyptians and the Palestinians.

BRITISH IN SYRIA FOR POLITICAL REASONS?

One would also like to know what answer will be given to the request of the Teheran Government concerning the evacuation of foreign troops who have less legal right than the French troops in Syria. British intervention justifies those who say that the British are not maintaining troops in the Levant for military but for political purposes. Of course two wrongs have never made a right and in this case of the pot calling the kettle black, the spectacle of the British emerging as champions of an oppressed people is ludicrous." Nevertheless the French, who base their actions in the Levant on the precedent of self-protection and other well-worn imperialist excuses, have about the same right to be there as the British have in India. Syria was given to France on a platter by the League of Nations and the British graciously accepted the overlordship of India from the various quisling princes. De Gaulle, in rejecting a tri-partite settlement, is right. This suggestion that the Big Four discuss the Middle East question in its entirety, is sound up to a point.

TRUSTEESHIP JUGGLING

The little war has ruthlessly exposed the juggling going on here on trusteeships. What De Gaulle suggests is already a fact with the reservation that there are 44 smaller countries who are unwilling to let the sponsor nations get away with the swag. This also ties up with General Romulo's stand on sovereign independence for all dependent peoples which, as I have ventured to predict, is causing extreme discomfort in certain quarters. From all this, the startling fact emerges that had the Charter been already written before the commencement of the little war, France, by exercising the veto power, could have effectively prevented any mediation or conciliation. The battle on the veto will reach its climax this week. But with the Soviet standing firm for its rights it is likely to be a neck and neck race. If the Big Five win, then 44 sovereign nations become appendages living on the good-will of their more powerful neighbours. If they lose, UNCIO is likely to collapse and become the glittering and empty facade behind which the hopes and prayers of the world lie buried. That is the unenviable situation which faces San Francisco this week. A city which, a bare month ago, received her guests with pride and joy and unbounded hope is today disillusioned tight lipped and weary of it all.

"Sealed Letter" For Khan Saheb A "Myth"

Mahtab Clarifies Gandhiji's Attitude To Frontier Ministry

PANCHGANI June 4 (U P I).

Mr Harekrishna Mahtab, member of the Congress Working Committee, and Principal S N Agarwal who came here to see Gandhiji, left for Bombay this morning.

Mr Harikrishna Mahtab when questioned whether he did not think the attitude of Gandhiji to the formation of Congress Ministry in N.W.F.P. was inconsistent with his general policy adopted for other non-Muslim provinces and whether he was aware of the feeling of Leaguites that it was a deliberate exception to create disruption among Muslims, replied, "I am glad you have put me this question. I know this feeling is shared by many Muslims. At first I myself was perplexed on the formation of Congress Ministry in N.W.F.P. and Gandhiji's attitude thereto. But when I discussed the whole question with him I found that Gandhiji had only sent a note saying "as you think best in the circumstances" and that the so called sealed letter was merely a myth."

CASE OF ORISSA

Continuing Mr Mahtab said "the atmosphere is so surcharged with communal feelings that even intelligent people fail to see obvious things in their proper perspective. Leave aside N.W.F.P. Take the instance of Orissa which is certainly a Hindu province. Assuming the minority party in the Assembly there has formed the Ministry and corruption and oppression going rampant in the province it would then be the duty of Congressmen if they were in absolute majority to expose the unrepresentative character and save people from corruption and oppression. These minority ministries have often been used as a cushion for autocratic irresponsible Government at the Centre at Whitehall. In some provinces minority parties were asked to form ministries in order to provide that cushion to irresponsible Centre. In it not wise to expose this game of the British Government. N W F P question should be taken in this perspective Provinces where Governors are ruling stand on a different footing inasmuch as irresponsibility stands there unmasked."

Our Readers' Views

Law Enforcement Under Greater Bombay

It appears to be definite now that the Greater Bombay scheme will soon be a reality. As one of the chief reasons for this extention is that the Suburban District has become a convenient refugee for "criminals, externees and other undesirable characters such as gamblers, pimps and prostitutes", it is announced that the strength of the Vigilance Branch of the C.I.D. will be increased. As no law can be successful unless there is a sufficient and efficient police force to work it out, this proposal will be heartily welcomed. But, unfortunately the past history of this special Branch by which name it was formerly called is not very encouraging. It was brought into existence in 1927 to work the Prostitution and the Children's Acts. The attention of the authorities was repeatedly drawn from the very beginning to the smallness of the force consisting of 3 officers and 4 constables, which was unable to cope with the evils. But the proposal was turned down on every occasion on financial grounds. The criminals were spread all over the city. The officers of the department had to spend a major part of their time almost every day in different courts as every case takes number of days to reach hearing and again several days to get it finally disposed of.

Besides, though the department was specially created to deal with the cases coming under the above two Acts, they were often called upon to help other departments on several occasions. But the most strange thing was that the authorities not only increased the strength of the department, but on the other hand reduced it by transferring an officer elsewhere for several years. Is the new scheme going to meet similar fate? This state of things continued till a few months back and now a small addition is made to the department. The population of the city is rapidly increasing. Prostitution has been, mainly due to war conditions, increasing on a scale never known in the past. It is admitted on all hands that there is much that can be done even under the present Prostitution Act which has glaring defects, if there is a police force efficient and sufficient to put it into force vigorously and if the step-motherly treatment which the department has been receiving from the authorities since its establishment is changed. If the Greater Bombay scheme is to be introduced and if the authorities are anxious to put a stop to the nefarious activities of pimps, procurers, brothel-keepers and prostitutes, they should not only strengthen the department sufficiently but should open a branch in the suburbs as the problem is more difficult to deal with in the Suburban District than in Bombay City owing to the bigger area of the former.

Why This Provincialism?

A city full of metropolitan air, with name and fame especially for trade, Bombay stands first in India. Bombay feeds lakhs and lakhs of persons a day. Bombay is a place of patricians and plebeians—rich and poor—employers and employees. The population is heterogeneous. She bears no malice or antipathy towards her sister provinces. But one often finds persons in it who, oblivious of their own origins, criticise each other's birth-place. One whispers to another contemptuously—"O! he is a Madrasi", "he is a Punjabi", "he is a Bengali", etc., without realizing that he is also an alien to Bombay. To speak strictly no particular community has the right to monopolise this magnanimous City when Bombay is a part of India and the inhabitants are Indians. India is struggling to win her Freedom, and position of equality with the free nations on the globe. Such being the case it is painful to see provincial prejudices striking roots everywhere.

It is really disgraceful to find certain companies and business houses turn their back on applicants if the latter do not belong to the particular communities or provinces. Some of the advertisements 'situations vacant' show preference to Parsees, or Gujaratnis or non-Madrasis, or Goans and so on. This kind of prejudice is particularly in Bombay. A wise employer should look to the efficiency and honesty of the employee and not at his caste, creed or colour.

What wonder is there then if Westerners show the colour prejudice against Indians when Indians themselves are not free from it! It is high time we get rid of this prejudice from our Motherland, when we are striving to reach the goal of Independence.

K. SHREEDHAR.

"Shias And Sunnis"

Mr. Hooseinbhoy Lalji in his statement complains bitterly against the attacks on Shia Imams by Sunnis. I strongly protest against such unworthy attacks by one sect against another specially when the attacking party happens to be in majority. No Sunni or Shia is entitled to speak on any religious matter of any other Muslim Sect or community to which he does not belong. Let every sect follow its beliefs, tenets, constitution or customs without any let or hindrance by outsiders according to its own choice. For example, I believe that in the matter of the Wakf Act being applicable to Dawoodi Boras, it must be left to Dawoodi Boras themselves to decide whether they want the Wakf Act for themselves or not.

On the same principle the Central Legislature should not pass bills affecting a particular sect without consulting its accredited dealers as it is being done at present. The majority of Muslim League Members in the Legislatures are Sunnis and they have sponsored many bills affecting other minority Shia sects in the matters of marriage, divorce, inheritance, will, excommunication, etc. and some of them are now on the statute book to the permanent disappointment of these sects. At the time of voting, the Congress Party has adopted a faulty policy of remaining neutral and allow the matters to be decided only by the Muslim votes which happen to be Sunni majority votes, and thus Shia minority Muslim sects are deprived of their legitimate right.

May I ask if this is the first instalment of Pakistan? Naturally many Shias have lost all faith in the Muslim League. It will be natural if Shias do not wish to be dominated by Sunnis and stand for self-determination and weightage and protection of their social and religious rights and solidly support the case for an United India with the rest of the communities of this vast subcontinent rather than sell themselves to the greedy promoters of Pakistan.

"MOSQUITO" MAKES WORLD RECORD

NEW DELHI, June 3 (U.P.I.): A Royal Air Force flying plane "Mosquito" which flew from England to India in 12 hours and 25 minutes has made a world record. This time includes 40 minutes' stop in Cairo for refuelling.

The average speed was 400 miles per hour over the whole distance of nearly 4,600 miles.

The previous record was made in last November when a "Mosquito" flew from England to India in 16 hours and 46 minutes making two stops for refuelling. The total flying time was 14 hours and 37 minutes.

NEW DELHI, June 4. (A.P.I.): Mr. J. N. Sahni, editor, the "National Call", has been invited to preside at the Fourth Journalist Day Conference of the Department of Journalism, Punjab University, to be held at Lahore on June 6 and 7.

T. V. Soong Soon To Visit Moscow

Expected To Discuss Future Of Korea And Manchuria

LONDON, June 3. (U.P.A.): The "Sunday Observer", reporting that the new Chinese Premier, Dr. T. V. Soong, will visit Moscow shortly, says that he is expected to discuss with Soviet authorities the future of Korea and Manchuria.

It is believed, the article continues, that Russia wants Korea to become an independent state, as provided by the Cairo Declaration.

A Korean National Liberation Government reportedly is in existence in Yenan, in Communist-controlled China, and will make its appearance before long, the "Observer" asserts.

MANCHURIA AS INDEPENDENT STATE?

The Russians also are believed to favour an independent regime in Manchuria, not linked with the Chungking Central Government. Thus, both Korea and Manchuria would be free to enter treaty relations with Russia.

The "Observer" states that the Soviet Government is understood to desire breaking of the dominant control of the Chinese National Government by the Kuomintang, giving the Communist a share in the administration of China proper.

CHURCHILL'S BROADSIDE AGAINST LABOUR

(Continued from page 1)

sive, so warm, so adventurous as that which is contained in our four years plan. Charging the Liberals with yielding to temptation to gain more seats in the House of Commons at all costs, Mr. Churchill appealed to them to consider whether a "Government which is animated by the love of freedom, which is vowed to that harmonious medium of justice and generosity so befitting a conqueror, has not more claim to their ancestral loyalties than has the Socialist Party, the administration of whose principles are an absolute of traditional liberalism.

"ABHORRENT TO BR. IDEAS OF FREEDOM"

"I must tell you that Socialist policy is abhorrent to British ideas of freedom. Although it is now put forward in the main by people who have had a good grounding in Liberalism and Radicalism of the early part of this century, there can be no doubt that Socialism is inseparably interwoven with Totalitarianism and an abject worship of the State. It is not alone that property in all its forms is struck at, but that liberty in all its forms is challenged by the fundamental conceptions of Socialism.

Look how even today they hunger for controls of every kind as if these were delectable foods instead of wartime inflictions.

"There is to be one State to which all are to be obedient in every act of their lives. This State is to be the arch-employer, arch-planner, arch-administrator and ruler and arch caucus boss.

'NO REGIMENTATION'

"A Socialist State could not afford to suffer opposition. Here, in old England, in Great Britain, in this glorious island, the cradle and citadel of free democracy throughout the world, we do not like to be regimented and ordered about and have every action of our lives prescribed for us. Socialism is, in its essence, an attack not only upon British enterprise but upon the right of the ordinary man or woman to breathe freely without having a harsh, clumsy and tyranical hand clapped across their mouths and nostrils.

A free parliament is odious to the Socialist doctrinaire.

'NO SOCIALISM WITHOUT POLITICAL POLICE'

"I will go further. I declare it to you from the bottom of my heart that no Socialist system can be established without political police. Many of those who are advocating Socialism or voting Socialist today will be horrified at this idea.

"That is because they are short-sighted; because they do not see where their theories are leading them. No Socialist Government conducting the entire life and industry of the country could afford to allow fre, sharp or violently worded expressions of public discontent. They would have to fall back on some form of Gestapo, no doubt very humanely directed in the first instance."

Contrasting this with his own policy, Mr. Churchill declared: "I stand for the sovereign freedom of the individual within laws which freely elected Parliament have freely passed. I stand for the rights of the ordinary man to say what he thinks of the Government of the day, however powerful, and to turn them out neck and crop if he thinks he can better his temper or his home thereby and can persuade enough of others to vote with him."

"NO MONKEYING WITH BRITAIN'S CREDIT"

After warning his listeners of the results if a Socialist Government began "monkeying with the credit of Britain without regard to facts or figures", Mr. Churchill said: "The new National Government stands decisively for maintenance of the purchasing power of the pound sterling and we would rather place upon all classes, rich and poor alike the heaviest burden of taxation they can bear than slide into the delirium of inflation.

"I warn you that if you vote for me and those who are acting with me, we give no guarantee of lush and easy times. On the other hand, you need not expect money to become a meaningless symbol.

On the contrary, our resolve will be that what has been earned by sweat, toil and skill or saved by self-denial shall command the power to buy the products of peace at equal value in sweat, toil and skill.

"We will also take good care against unfair raketoffs and monopolies and we will protect the common man by a law against them by controlling monopolies, whose operations are any restraint on trade or oppressive to the smaller producer or distributor."

TASKS AHEAD

Mr. Churchill then referred to the great tasks still to be accomplished —demobilisation formation of new armies to finish the Japanese war production of food, clothes, and articles of all kinds and development of the four-year plan—and declared, "what a mad thing it would be to slash across this whole great business of resettlement and reorganisation with these inflaming controversies of socialistic agitation.

"Leave those Socialist dreamers to their utopias or their nightmares. Let us be content to do the heavy job that is right on top of us.

And let us make sure that the cottage home to which the warrior will return is blessed with modest but solid prosperity well fenced and guarded against misfortune and that Britons remain free to plan their lives for themselves and for those they love."

TETE-A-TETE

WITHOUT COMMENT—

LONDON, June 4.

Referring to 'Dawn's" demand for the release of the Grand Mufti "Daily Worker's" Diplomatic Correspondent says that the British Government has already requested the French to hand over the Mufti. It is thought likely he will be tried for treason.

Mr. Jinnah's suggestion that the charge for treason is based on the Mufti's opposition of Jewish immigration in Palestine is simply a cloak for the Mufti's well-known co-operation with Fascist Powers in his disruptive inflammatory activity in Near East.

Brigadier Dorman Smith, a brother of Sir Reginald Dorman-Smith (of Burma) has formed a "League of Angry Men", composed of soldiers, to fight the British General Election.

In the circumstances the most suitable and appropriate choice as leader will be that of Mr. Churchill.

* * *

By the way, Brigadier Dorman-Smith and his Leaguers seem to be really angry men. Terribly angry.

In fact so angry they are with the Tory Government and leaders and the Tory spirit in Britain that the chief Angry Man, the Brigadier has resolved to seek election as—a Liberal.

"I hope" says Mr. Jinnah, "the Arab League which meets on June 4 will accord their complete and wholehearted support to Syria and the Lebanon."

We can now feel assured that the Arab League called emergently to accord its full support to Syria and the Lebanon will not neglect Syria and the Lebanon.

* * *

"The hundred million Muslims of India", Mr. Jinnah promises the Arabs, "will not fail to do all that lies in their power".

With that extremely lively imagination of his, our Junior Colleague has already begun to see exciting visions.

The report is confirmed from several sources that French troops resorted to widespread looting in the bazaars of Damascus and other cities.

But we are inclined to sympathise with the French. Having been robbed and looted by the Germans they must naturally be recouped for their losses, and quite appropriately in the Arab world under the sacred tradition that whoever suffers in Europe at the hands of Europeans should be guaranteed compensation and retribution in the Middle East.

The Iran Prime Minister is reported to have said in Parliament: "Now that the war is over, I hope that our Allies will withdraw from the country their troops, whose mission has been completed."

We don't want the Premier to be deprived of the consolation of innocent hopes. But what has been completed is only the "end of the beginning".

A British paper believes that Russia desires breaking of the dominant control of the Chinese National Government by the Kuomintang giving the communists a share in the administration of China proper.

And the Kuomintang a share in the administration of the Northern Border Region?

Says the Roman Catholic Archbishop of Westminster: "Communism because it is directly opposed to belief in God, is intrinsically an evil".

But is it directly opposed to belief in God?

Palme Dutt Against Amery

Calls Him Worst Representative Of Guilty Men Of Toryism

BIRMINGHAM, June 3 (Reuter): The Communist candidate Dr. Palme Dutt, partly Indian himself who is standing in the General Election against the Secretary of State for India, Mr. Leopold Amery, to-day opened his campaign in Sparkbrook constituency by saying: "Our men fighting in the Far East understand how Mr. Amery's policy of deadlock in India is prolonging the war and delaying their return. During the past week men on leave from the South-East Asia Command have brought me messages from their units wishing me luck against Mr. Amery". Mr. Dutt added.

"Sparkbrook electors have a duty to our men in the east to see that Mr. Amery is defeated.

We are not fighting this election against Mr. Amery only as Secretary of State for India. We are fighting Mr. Amery as one of the worst representatives of the guilty men of Toryism whose pre-war support of Germany, Italy and Japan and his hostility to the Soviet Union has helped to bring on the war.

"How dare this Tory Government hector General de Gaulle for delaying Syrian independence in the face of their own record in India? The unity of Sparkbrook electors can, must and will defeat Mr. Amery. Former five candidates in the field have become three. There should be only two.

"We regret that at the last moment the Labour Party put a candidate in the field to split the vote after I had been conducting my campaign for a year and a half. I know there is strong opposition in the constituency's Labour Party to contesting against me, and heavy pressure was brought to bear on them.

The majority of the trade union branches in the constituency have supported our campaign for unity. I appeal to all Labour, Socialist, Democratic and Progressive in Sparkbrook to rally behind me in a grand united campaign to clear out Mr. Amery from public life and win Sparkbrook for people."

U. S. CASUALTIES IN U-BOAT WARFARE

MIAMI (FLORIDA) June 4 (Reuter): A total of 111 Allied ships were attacked and 882 men killed in U-boat warfare off the coast of Florida and the surrounding area from February 1942 until V-e day, the United States Navy Department disclosed.

Only 15 of the vessels were salvaged, the announcement said. Of 107 ships attacked in 1942, 92 were sunk.

Four ships were attacked in 1943, but no attacks were reported in 1944 or this year.

Jap Radio Becomes More Nervous

Allied Leaflet Propaganda Proves Effective

GUAM, June 3 (Reuter): Since the beginning of May, between 500,000 and 1,000,000 brightly coloured illustrated leaflets have been dropped daily over Japan's great cities Tokyo, Osaka, Kobe, Kyoto, Yokohama, and others—urging the Japanese to get out of the war radios David Brown Reuter's special correspondent.

Dropped from super fortresses and carrier based planes, the leaflets, of which there is a score of different types, bear messages varying in tone from an appeal to a stern warning.

Simultaneously from the island of Saipan, captured by United States troops in Feby, broadcasts in Japanese are beamed daily to the Japanese people, pointing out to them the hopelessness of their position. The tone of counterblasts from the Japanese home radio, which has lately become more nervous and querulous, is taken to indicate that this concentrated propaganda campaign has been taking effect.

One Raid On Tokio Costs 110 Crores

WASHINGTON, June 3. (Reuter): A single Major American raid on Tokio, Osaka or Nagoya costs about 330 million dollars (Rs. 110 crores), the United States Treasury War Finance Division report disclosed to-day.

The United States 20th Air Force has to-day over 2,000 Super Forts operating against Japan from island bases in the Pacific, representing an investment of over 1,200 million dollars (Rs. 400 crores) by the American people.

Now the 8th Air Force transferred from bases in Britain is to include Super Forts, thus further increasing the American investment in these big bombers costing 600,000 dollars (Rs. 20 lakhs) each.

If the cost of ground facilities, training, fuel, munitions and other charges is added, this means the United States is spending almost 4,000 million dollars (Rs. 1,333 crores) yearly on giant bombers.

1,000 INDIAN STUDENTS IN U. S.

Professor M. S. Sundaram, education liaison officer with the Indian Agent General in Washington, is now travelling extensively in the United States making arrangements with colleges and universities for 300 young men from India who will be taking technical and industrial courses in the United States beginning next fall. This new programme to furnish engineers and scientists for India's industrialization is receiving good encouragement from America's educational institutions. It is understood in Wasnington that eventually 1,000 students from India will be studying here in the most far-reaching industrial education plan ever set in motion between the United States and another country.

According to present plans young men will be distributed in universities in all parts of the United States in accordance with specialities they desire. Most will be taking engineering, such as mechanical or electrical engineering, agricultural and mining courses. Students will spend one to three years here, depending on the line of study. They are already graduates of Indian colleges or have had practical experience in special fields.—USOWI.

The Parsis in their first innings were all out for a meagre total of 148 runs Hiranand being most successful bowler capturing four wickets for 53 runs. The Hindus replied with 309, Malik remaining not out with 67.

General Election And Vote By Proxy

NEW DELHI, June 3 (A.P.I.): Every effort has been made by G.H.Q. (India) to ensure that all British Service men and women in the India-Burma theatre are enabled to vote by proxy or post in the forthcoming General Election. There were some difficulties but they arose from delays in necessary instructions from London. The organisation here was always awaiting the word "go."

LAVAL SOJOURNING AT SAN SEBASTIAN LUXURY RESORT?

PARIS, June 3 (U. P. A.): A report from Spain through diplomatic channels said that Pierre Laval, Premier in Marshal Petain's Vichy Government, had been sent by Spanish authorities to the San Sebastian luxury resort on account of his ill-health.

Laval is living in San Sabastian incognito according to the report, which added that Spain is not expected to deliver the refugee to the French Government unless they received one or more prominent Spanish refugee republicans in exchange.

LONDON, June 4 (Reuter): One of war's most sensational rumours—that a German bid to invade Britain in the Autumn of 1940 perished in a war of flames blazing on the Channel waters—was merely a rumour.

India's Independence The Only Yardstick

CONGRESS DOES NOT LOOK TO LABOUR PARTY ELECTION FORTUNES FOR COUNTRY'S SALVATION

PANCHGANI, June 4. (U. P. I.): "In the history of struggles for freedom, a stage comes when sitting tight on one's own ground is much wiser than losing one's nerves and go on giving up grounds for so-called action", says Mr. Harekrishna Mehtab, member of the Congress Working Committee in a statement to the press.

He says: "Since 1942 some earstwhile leaders of Congress have thought it wise to denounce the Congress policy and betray a state of mind which even the Liberals of 1921 disdained to exhibit in their crusade against non-co-operation movement at that time. Now the Liberals have considerably improved in their outlook, and they have considered it wise to be tolerant towards the Congress.

But the Congress leaders who have taken to liberalism of late have with the zeal of renegades, taken upon themselves the task of teaching sobriety to Congressmen and of inculcating in them the belief that the policy adopted by the Congress in 1942 was wrong and the wisest and the best course was and is at present to accept whatever is given by the British Government and then try for more—a doctrine in politics which has long ago been buried several fathoms deep in the Indian Ocean. I know Congressmen generally look upon this kind of gratuitous advice with contempt from whatever quarters it may come.

But the persistence with which the preaching goes on and the air of superior statesmanship that is displayed while preaching obsolete political doctrines tempt me to say a word in protest. I assert emphatically that the step taken in 1942 by the Congress was the most reasonable in the then prevailing circumstances and subsequent course of events have clearly borne it out, and no real Congressman rues it even now.

"I cannot reconcile myself to the aduvice that I must vrepare myself to accept whatever reform is offered to me, nor do I feel so devoid of self-confidence that I shall be persuaded to look up to the success of the Labour party in the election for the achievement of India's goal.

Really it is the wonder of wonders that this kind of advice which cannot stand even a moment's scrutiny is given to Congressmen who have burnt all their boats and resting on their oars in the mid ocean with all hope for the future. Even a Liberal of the most moderate type would blush to tender such advice as is now given by the quondam leaders of Non-violent non-co-operation. I have to weigh in the scale of India's Independence whatever proposal is made for the solution of Indian problem. If I shall find it wanting I will reject it most unhesitatingly with full knowledge of the consequences of my action."

EXPERIMENTS ON MICRO-WAVE TRANSMISSION

NEW YORK, By Mail (U.P.A.): Since microwaves do not carry beyond the horizon and require relay stations to transmit them over long distances, the American Telephone and Telegraph Company seeks to erect seven mountain-top radio relay stations between New York and Boston to further its experiments in microwave radio transmission. The relay stations will be situated thirty miles apart to extend the distance from the sending instrument to the horizon.

AIM OF PROJECT

The aim of the experimental project is to compare and determine in practical operation whether microwave transmission of long distance telephone calls, radio and television programmes is more efficient and economical than transmission over cables, wires and the recently instituted coaxial cables.

Construction of roads and power lines at the seven points will begin this year. Buildings to house the apparatus and directive antenna systems to pick up and amplify radio waves and beam them on a straight path from station to station will be constructed later, American Telephone and Telegraph officials said.

They pointed out microwave radio transmission, using short waves—which may be projected like searchlight batteries—do not pick up static and the number of channels in these high frequencies are limitless.

Research personnel from the Bell Telephone Laboratories will take an active part in the experiments as soon as they have completed their current war orders, A. T. and T. said.

DIMITROV'S LIFE IN IMMEDIATE DANGER

LONDON, June 3. (Reuter): New York Radio to-night quoted the United States Acting Secretary of State Mr. Joseph Grew as saying that the Bulgarian Political Leader Doctor George Dimitrov had presented himself of the United States representative in Sofia, Mr. Barnes, on May 24 and said that his life was in immediate danger.

Dimitrov was a short time ago General Secretary of the Bulgarian Agrarian Party. He is in way connected with George Dimitrov, the former Secretary of now defunct Comintern.

Paper Control (Economy) Order Amended

NEW DELHI, June 3 (A.P.I.): The Government of India have, by a notification in the Gazette of India Extraordinary dated June 4, 1945, made certain amendments to the Paper Control (Economy) Order, 1944. Of these amendments some important ones are given below: General permission has been given to associations, societies and other institutions to consume a quantity of paper not exceeding 50 lbs. per year, for the printing and distribution of annual reports, agendas of meetings, balance-sheets and accounts, etc.

(2) General permission has also been granted to print pocket diaries not exceeding 4" x 3-1/2" but providing one page to a date instead of the existing requirements of providing for not less than three dates to a page.

(3) Hand-made paper has been excluded from the provisions of the Paper Control (Economy) Order, 1944, excepting those applicable to newspapers and periodicals. The paper controller, India, has been authorised to permit on suitable cases consumption of paper by printing presses and manufacturers of articles from paper in excess of their quarterly quota subject to adjustment in subsequent quarters.

A further notification amending the Paper Price Control Order, 1944, has been issued which prohibits the stocking of unlabelled paper for sale. So far only the actual sale of unlabelled paper was prohibited.

NEW LIGHT ON HESS If Wife's Evidence Is Admissible

LONDON, June 3 (U P. I.): The "Evening Standard" published a sensational interview with the wife of Rudolf Hess, former Deputy Fuehrer who flew from Germany to Scotland in 1941. Frau Hess who has been held under house arrest by the French for questioning told the "Evening Standard" correspondent that her husband had been treated as a traitor by the Germans since his flight, though she admitted that Himmler continued to send her son parcels of toys and sweets during the Christmas holidays.

She spoke admiringly of Hitler and denied the story that Hess was insane. She added: "Knowing him I believe that he wanted to end the war in the west by an Anglo-German alliance against Bolshevism. I do not believe that he flew to England on anyone's order. It was an independent attempt to save Europe from Bolshevism."

Got prickly heat? Maddened by intolerable itching? Then don't scratch—and don't despair. Use *Milton*. Nearly every European new to India suffers from this skin condition when the hot season comes round. Many of them have written to tell us of the value of *Milton*. Apply it, undiluted, on a piece of cotton wool, and allow it to dry on before replacing clothes. This will relieve the irritation and frequent applications will probably banish the condition altogether. If the irritation has existed for some time and the skin is raw, use dilute *Milton*. (See directions leaflet accompanying every bottle). And remember, when you're not using it, keep your *Milton* firmly corked.

CONTROLS have already hampered Black Marketeers in their activities. Not less useful has been the public will NOT to pay high prices. The combination of these two means a Black Marketeer either has to go out of business (or to gaol), or accept a fair profit. Keep up the good work. Check up prices. They are stamped on cloth, brass utensils and footwear. They are published for drugs and most other necessities, and every dealer must display a copy. Always take a cash memo for every purchase. If the price is too high report the dealer to the police instantly. Do not hesitate. Do not show mercy for these social enemies.

By joining this campaign against profiteers, *you* can bring prices down. You can watch the Black Market disappear, and your savings grow.

TANDON DEPLORES BAN ON "P. W."

ALLAHABAD June 3. (A.P.I.): Mr. Purshotamdas Tandon, Speaker of U. P. Assembly in an interview on the ban order of the U.P. Government on the Communist Party paper, the 'People's War", and its counter-parts in Hindi and Urdu, said: "To my mind the order is thoroughly unjustifiable. Thakur Chandra Singh's article, which is the cause of the ban, is a historical retrospect of what happened at Peshawar in 1530. The attempt of the U.P. Government to suppress historical facts cannot be said to be wise.

"Daily Worker" Deplores Jinnah's Attitude

(From Our Correspondent).

LONDON, June 4.

Referring to 'Dawn's' demand for the release of the Grand Mufti "Daily Worker's" Diplomatic Correspondent says that the British Government has already requested the French to hand over the Mufti. It is thought likely he will be tried for treason.

Mr. Jinnah's suggestion that the charge for treason is based on the Mufti's opposition to Jewish immigration in Palestine is simply a cloak for the Mufti's well-known co-operation with Fascist Powers in his disruptive inflammatory activity in Near East.

KOREA'S POSITION STILL UNSETTLED

Allegations About Secret Pact Denied

The State Department of U.S.A. has denied the allegations that the United States, Britain and Russia agreed secretly at Yalta that Korea should remain under Russia's sphere of influence until the Pacific war is ended.

The denial stated in the letters on UNCIO stationery, was signed for the Secretary of State by the Director of the State Department's Office of Far Eastern Affairs, Mr. Joseph Ballantine, and addressed to Dr. Syngman Rhee (Lishenmin, the first President of the Korean Provisional Government which was established at Seoul in 1919 and Kilsoo Hand (Handhinhsiu), Chairman of the the Sino-Korean League.

The possibility of Korean admission to the UNCIO has dwindled to nothing although there is a great deal of sympathy for Korea among the delegates and newsmen. The U.S. Government has treated Koreans differently from Japanese subjects and Koreans are not required to apply for identification certificates as enemy nationals. However, officially the UNCIO Secretary-General, Mr. Alger Hiss, wrote to Mr. Lishengmin stating that Korea is not a signatory to the United Nations agreement and therefore has not fulfilled the first requirement for UNCIO membership as provided under the Yalta agreement. Mr. Lishengmin later converted with Mr. Hiss regarding the steps Korea might take toward signing the United Nations Declaration, but was told that this procedure is at present out of the question.

Wall Street Market Cautious

NEW YORK, June 4.

Wall Street opened very steady and moderately active and Rails, aided by the realisation that they have attained the soundest financial position in history and can continue to expect heavy trafic after "V-J" day, advanced to new peaks with one point gains but declined slightly towards the close. Gains in other departments were plentiful and there were not many declines. Buillish peacetime business was the main bolstering influence for pivotal stocks while Middle-East apprehension and possible Washington moves to stem speculation were a cautionary influence. There were no recent developments to account for the rise in Canadian-Pacific to the new high level of seventeen and a quarter but it is believed that considerable buying was due to the excellent prospects of Canada's post-war period. The session closed fair.

The Royal Navy pioneered the technique of torpedo air attack. Fairey Swordfish torpedo-bombers—most successful of Britain's operational biplanes—made history the night they crippled the Italian battle fleet at Taranto. They have been a major weapon in defeating the U-boat menace to Allied shipping. The Swordfish is powered by a Bristol Pegasus engine

COMMAND OF THE SEAS

Many are the complicated problems which British aeronautical engineers have solved in design and production of sea-going aircraft.

The intricacies of folding wings, the peculiar structural stresses and strains involved in deck flying, and the development of special radio equipment—these and many other difficulties have been mastered.

Numerous honours have already gone to British naval aircraft in this war. The first enemy aeroplane to be shot down at sea; the first successful torpedo air attack against a capital ship; the first ship to be sunk by dive-bombers; such achievements star their history

Aircraft of the Koyal Navy are built to withstand extremes of climate. In the first weeks of the war the squadrons of one carrier alone swept more than seven million square miles of sea. In ice, fog, blizzard, tropical rains, sandstorms and burning suns these aircraft have satisfied the most exacting demands of active service.

World air transport likewise calls for fitness for diverse duties and immunity to climatic extremes.

British industry which has made thousands of formidable sea-going warplanes can be trusted to produce the merchant airliners and airfreighters of Tomorrow.
